Santa Clara, CA 95051

PREFACE.

Herewith we present the San Jose City Directory and Directory of Santa Clara, Santa Cruz, San Mateo, San Benito and Monterey counties, for 1889.

We have followed the plan of our last Directory in giving the assessment roll of the five counties named, which we trust will be found of service to the business men and the public.

We have endeavored to keep the Directory corrected up to date, but there are changes taking place daily, of which it is impossible to keep track.

To our patrons, and to those who have assisted us in our work, we tender our sincere thanks, and trust that our united efforts will be appreciated.

THE PUBLISHERS.

Free Bus to and from the Hotel.

W. O. BOWERS, PROPRIETOR.

Santa Clara County.

The Garden county of the State still continues to hold the banner for beauty of situation, fertility and adaptability of soil, and for evenness of climate.

Among the many changes that are taking place in the county, none are more noticeable than the cutting up of large tracts of grain growing and timber lands into small fruit farms, orchards and vineyards, which will in the near future be a great source of wealth to the county

Petroleum has lately developed itself in the county and has been found in the mountains, and there is every reason to believe that natural gas also exists, and a search for it will be put in progress in the near future.

Railroad building will also be engaged in, opening up different parts of the county and bringing them in more direct communication with the metropolis.

There can be little doubt that Santa Clara will continue to grow and flourish, as the inducements to those in search of beautiful and at the same time remunerative homes, is being constantly kept before the class of people most likely to take advantage of them, by the efforts of the Board of Trade of San Jose, which has adopted every conceivable means of advertising the resources and attractions of the county.

THE BEST FERTILIZER IN THE WORLD

*Is the Nitrogenous Superphosphate of the Mexican Guano and Sulphur Company,
for SUGAR BEETS, and all other roots carrying saccharine. It has the indorsement of the highest intel-*

San Jose City.

Since the publication of our last Directory the City of San Jose has grown considerably as will be evidenced by a comparison of this issue with our last Directory

Building has been going on to a great extent, and numerous beautiful structures, both public and private, have been added to beautify the Garden City, noticeable among which are the New City Hall, just being completed at a cost of \$150,000, and the Hotel Vendome built in a large and beautiful park, owned by the Company on First street north of S. P. Co's Broad Gauge track. This will be a valuable addition to the attractions of San Jose.

During the past year the Electric Street Railroad, running between Santa Clara and San Jose, has been put in operation, and is proving a success.

The Lick Observatory has also been formally handed over to the Regents of the State University since our last Directory, and adds much to the travelling population of the City, as from here the Mt. Hamilton Stage Co. run their daily line of stages to and from Mt. Hamilton, leaving their office at Wells, Fargo & Co., on north First street at 7:30 A. M. Round trip tickets for the journey can be purchased of A. W. Ingalsbe, the Co's agent.

The City has also nearly completed a new Sewerage System, second to that of no city in the State.

The Board of Trade of San Jose, with D. B. Moody, Esq., for President, and Edward B. Lewis, Esq., for Secretary, has been established, and is fully alive to the interests of Santa Clara County in general and those of San Jose City in particular.

Everything in connection with the City is in a prosperous and healthy condition with every prospect of remaining so.

Independent, Fearless and Clean. JAMES H. BARRY, Publisher.
429 Montgomery Street, San Francisco, Cal.

This Fertilizer is known to be the best for all roots carrying saccharine. Germany alone has taken eight thousand tons of this Fertilizer from us this year for Sugar Beets; and our orders for cargoes will swell the export to 15,000 tons.

NITROGENOUS SUPERPHOSPHATE

OF THE MEXICAN GUANO AND SULPHUR CO.

This Fertilizer is known to be the best for all roots carrying saccharine. Germany alone has taken eight thousand tons of this Fertilizer from us this year for Sugar Beets; and our orders for cargoes will swell the export to 15,000 tons.

ALVISO.

A post express and telegraph town situated at the head of San Francisco Bay on the line of the S P Co's P S C R R, 38 miles from San Francisco. The town was laid out in 1849, and every provision was made for a large city. Was incorporated March, 1852. The trustees were invested with power to levy and collect a wharfage tax upon all vessels arriving there. Instead of the town continuing to build up, prosper and push forward, it has gradually fallen backward, until it is now a very quiet place. In the summer months some lumber is landed for the San Jose Planing Mills, and a good deal of fruit from the Santa Clara Valley is shipped cityward

COYOTE.

COYOTE, SANTA CLARA CO. A post and express town on the S. P. Co. Northern Division, 63 miles from San Francisco. This town is situated in a large fruit growing section of the county, the soil in the locality being peculiarly adapted to that industry. A great many young orchards are springing up around, and undoubtedly in the near future this will be an important fruit center. Coyote has a good hotel, the Coyote House, kept by Mr. J. B. Peppin. San Jose is the nearest banking town;

GILROY.

SANTA CLARA COUNTY. Is situated on the S. P. Co.'s Northern Division, 81 miles from San Francisco and 30 miles south of San Jose, the county seat. It is the next largest place in size, San Jose being larger. The place contains stores, post, express and telegraph offices, bank, and a first-class hotel that offers all inducements to persons wishing to spend a few pleasant months with but little expense. Tobacco cultivation is practiced largely, cigars being manufactured there. It is an agricultural and dairy region, and has a population of 4,000.

NITROGENOUS SUPERPHOSPHATE

OF THE MEXICAN GUANO AND SULPHUR CO.

McMahon House, The Leading Hotel of Hollister.
J. J. FAY, Proprietor.

This Fertilizer is known to be the best for all roots carrying saccharine. Germany alone has taken eight thousand tons of this Fertilizer from us this year for Sugar Beets; and our orders for cargoes will swell the export to 15,000 tons.

LOS GATOS.

Fifty miles from San Francisco and nine miles south of San Jose, on the South Pacific Coast Railroad, at the foot of the Santa Cruz Mountains. Has a post, express and telegraph office; also excellent hotel accommodations. It is located in the rich fruit belt of the Santa Clara Valley, to which the immense number of orchards and vineyards give substantial evidence. The largest almond orchards in the world are located in the immediate vicinity, and their abundant yields are a source of great profit to the owners. The climate will admit of growing oranges, lemons, olives, etc., and ripen to perfection.

VAN NESS & OUGLIN, **MANSION HOUSE, Stockton, Cal.**

MAYFIELD

Is located 15 miles from San Jose on the Southern Pacific Railroad, and 35 miles from San Francisco. In and around the town are evidence of wealth; many handsome and substantial residence can be seen, and the neat well-kept farms show industry and success. There are post, express and telegraph offices; has a population of about 500, and is on the increase. Santa Clara is its nearest banking town.

California Fertilizer is known to be the best for all roots carrying saccharine. Germany alone has taken eight thousand tons of this Fertilizer from us this year for Sugar Beets; and our orders for cargoes will swell the export to 15,000 tons.

SANTA CLARA CO.—SANTA CLARA.

SANTA CLARA.

SANTA CLARA COUNTY. The town of Santa Clara is situated in the Santa Clara Valley 3 miles west of San Jose. It is 2 miles long and $1\frac{1}{2}$ miles wide; it has post, express and telegraph offices, and an organized fire company. The famous College of Santa Clara, and the University of the Pacific, are situated in its midst. It has a population of about 3,000. The town is constantly growing. The name Santa Clara is taken from the old mission, which was the first settlement in the county. It is on the lines of the S. P. C. R. R. (narrow gauge) and the S. P. Co.'s Northern Division. It is also a banking town.

WRIGHTS

Is situated on the South Pacific Coast Railroad, 62 miles from San Francisco, 16 miles from San Jose, and 18 miles from Santa Cruz, in the heart of the Santa Cruz Mountains, 1,700 feet above sea level. The climate is especially recommended for weak lungs, asthma and all pulmonary diseases. There is a postoffice, express and money order office, as well as a fine, comfortable hotel—the Jeffries Hotel—where every accommodation can be had

Santa Cruz County.

Santa Cruz County, one of the counties forming the Fifth Senatorial District, is bounded on the north by San Mateo County, on the east by Santa Clara County, on the south by Monterey County, and on the west by the Pacific Ocean and Monterey Bay. The principal towns are Aptos, Boulder Creek, Corralitos, Davenport, Felton, Santa Cruz, Soquel and Watsonville. It is one of the smallest counties in the State, and has a population of about 35,000. Its chief products are farming, fruit, redwood lumber, lime and cement. There are many extensive sawmills, tanneries, powder mills and lime kilns located throughout the county.

County Officers of Santa Cruz County.

(OFFICES IN COUNTY COURT HOUSE.)

JAS. D. BYRNES,	Joint Senator Santa Cruz and San Mateo
JESSE COPE.....	Assemblyman
P. J. McCANN.....	Judge of Superior Court
T. E. JENNINGS.....	Sheriff and Tax Collector
ED. MARTIN.....	County Clerk, Recorder and Auditor
WM. T. JETER.....	District Attorney
CHAS. STEINMETZ.....	Treasurer
T. V. MATHEWS.....	Assessor
J. W. LINSOTT.....	School Superintendent
F. E. MORGAN.....	Coroner and Public Administrator
N. S. FROST.....	Surveyor

SANTA CRUZ CITY DIRECTORY.

This charming seaside resort is situated on the coast about 80 miles from San Francisco, and is reached by S P Co.'s R. R. via San Jose and through the Santa Cruz Mountains, a most beautiful and picturesque route, by the S. P. Co.'s Northern Division (Santa Cruz Branch) and by the Pacific Coast steamers. The beach at Santa Cruz is one of the finest on the coast, and the bathing facilities are excellent. The hotel accommodation is ample and being constantly improved. The school accommodation of Santa Cruz is excellent, especially we would mention the Business College conducted by Prof. J. A. Chesnutwood, which has a reputation widespread and unexcelled. The drives around Santa Cruz are very fine, particularly the Cliff Road. Santa Cruz has postal, telegraph and express facilities, and is a banking town. Population 6,000.

The Nitrogenous Superphosphate of the Mexican Phosphate and Sulphur Co., has the indorse-
ment of Professor Hilgard of the College of Agriculture of the University of California, for the pre-
dominance in it of phosphoric acid, which is the best plant food.

SANTA CRUZ CO.—BEN LOMOND.

BEN LOMOND.

SANTA CRUZ COUNTY, is on the line of the S. P. C. R. R. Co, 73 miles from San Francisco, and 11 from Santa Cruz; situated in the Santa Cruz mountains on San Lorenzo river, at the junction of Newell and Love creeks, thirty minutes ride from the sea shore. The largest saw and shingle mills in this range of mountains are situated here, and owned and operated by the Ben Lomond Land and Lumber Company. It has also a store, blacksmith shop, Schoolhouse, Postoffice and Express. The scenery surrounding Ben Lomond can not be surpassed, as it has beautiful rolling land—upon which the village is located—grand mountains towering on all sides, and especially the views on the new grade to the celebrated Ben Lomond mountain, from which the town derives its name. It is one of the best and healthiest summer resorts known on the coast. The place is growing rapidly and in a few short months—with the several new residences that are now being erected, added to the many lovely places built last year—will make Ben Lomond a most desirable place to locate and live. The advantages this place has over its rivals is, it has no saloons. Its good, pure spring water, that is brought from a distance and distributed wherever needed; also, its nice large hotel and cottages that occupy several acres of ground. Parties seeking a place to spend the summer months will find Ben Lomond unsurpassed for climate, water, fishing, hunting and camping.

BONNIE DOON.

McLelland Dan A139-R-err-I-trr-P-ctr
Scott Francis, teacher Ocean View District

BOULDER CREEK.

Most beautifully situated on the Santa Cruz and Pescadero branch of the S. P. C. R. R., fifteen miles from Santa Cruz. Has post, express and telegraph offices. Cunningham & Co. conduct a large general merchandise store. Has a daily stage to Santa Cruz, distant about eleven miles by wagon road. Boulder Creek is for its size the livest town in the State. It is situated in the heart of the Santa Cruz mountains, and is the objective point of all campers going to the mountains; supports five first-class hotels, and is already being known as the "Banner Summer Mountain Home." The chief industry is lumbering. Five mills—two shingle—are in operation.

This Fertilizer is known to be the best for all roots carrying machinery. Germany alone has taken eight thousand tons of this Fertilizer from us this year for Sugar Beets; and our orders for cargoes will swell the export to 15,000 tons.

SOQUEL.

Soquel is situated 116 miles from San Francisco and five miles east of Santa Cruz, on the S. P. R. R., and half a mile from the beach; has a post and express office; daily stage to Santa Cruz. The climate of Soquel is the most delightful of any spot on the earth. It is so situated that the force of all heavy winds from the ocean is broken before reaching there. The country around is being boomed and a large influx of people is expected. Camp Capitola is near by on the beach where thousands resort annually. The community is intelligent, industrious and enterprising. It is a manufacturing town. Population about 800

WATSONVILLE.

Is the principal town of the Pajaro Valley on the S. P. Co's N. Div., 99 miles from San Francisco, located in the center of the Pajaro Valley and on the Pajaro River. It is a thriving, prosperous town of about 3,000 people, and is well equipped with four good hotels, five churches and a flourishing graded school with a corps of eleven teachers. The town has been incorporated since 1868. It is supplied with beautiful, clear and sparkling mountain water, brought in pipes a distance of ten miles, and is lighted with gas. Half a mile of the main street, and over a mile of sidewalk are paved with bituminous rock. The town is so situated as to command a view of its beautiful background of hills, and is four miles from the bay and beach. The drives to the lakes are beautiful, or in less than an hour you can be either in Santa Cruz or Monterey. Watsonville has two banks and excellent post, telegraph and express facilities. Steamers land within two and one-half miles, and receive freight in competition to the railroad. Among the notable industries of the surrounding Pajaro Valley is the redwood lumber business. Two paper mills in running order contribute to the wealth of the valley. A large fruit dryer has proven a successful venture, and a monster cannery is being projected. The greatest enterprise of the valley is the beet culture. The Western Beet Sugar Co., Claus Spreckles at the helm, has sailed into a new sea of prosperity. The factory is very extensive, and furnishes employment to about two hundred men; runs day and night. The value of the output is about \$4,000 per day during the harvest season, from August to January. This enterprise is in its infancy, but this coming season it is expected that the output will be twice as great.

THE BEST FERTILIZER IN THE WORLD

*Is the Nitrogenous Superphosphate of the Mexican Guano and Sulphur Company,
for SUGAR BEETS, and all other roots carrying saccharine. It has the endorsement of the highest intel-*

ligence in Europe for the past three years, where its use is limited only by the supply.

San Benito County.

SAN BENITO COUNTY, which, until March, 1874, formed the northern part of Monterey county, is bounded on the north by Santa Clara and Santa Cruz counties ; east by Merced and Fresno ; south and west by Monterey, and has an area of 800 square miles.

The soil varies greatly in different parts of the county, producing fruits and vegetables of all kinds in great abundance, and cereals of every variety, thus making it an especially favorable locality both for extensive ranches and more modest farms

There are three large valleys in the county, the San Benito, San Juan and Santa Ana, almost wholly devoted to the production of grain. Recently considerable attention has been given to the cultivation of flax, which promises to be a profitable product.

In this county, the raising of poultry, hogs, sheep and cattle, and dairying are largely engaged in, and have proved to be remunerative branches.

Since the discovery of quicksilver, San Benito county has been rapidly growing in importance as a mining district, and it is believed that rich beds of coal will be developed there in the near future.

Its climate is almost perfect ; mild winters with no snow and very little frost ; and cool, breezy summers, which absolutely exempt it from all forms of malaria.

This Fertilizer is known to be the best for all roots carrying saccharine. Germany alone has taken eight thousand tons of this Fertilizer from us this year for Sugar Beets; and our orders for cargoes will swell the export to 15,000 tons.

HOLLISTER.

SAN BENITO COUNTY. A post, express and telegraph town on the Tres Pinos branch of the S. P. Co.'s Northern Division. It is situated in the center of a rich agricultural district. The people of Hollister are wide-awake to the advantages they have, and are untiring in taking advantage of them. It has an efficient fire department, one of the finest flouring mills in the State, excellent educational institutions, both public and private, churches of different denominations, two excellent weekly newspapers, and presents to an observing visitor all the signs of a prosperous and growing town. Owing to its situation in the center of San Benito Valley, it is of unusual importance as a shipping point. It has post, express and telegraph offices, hotels and a bank, also a commodious passenger and freight depot.

 Shipping and Commission Merchants,
 SAN FRANCISCO, CALIFORNIA.

San Mateo County.

An important agricultural county of the State. Here there is probably a larger aggregation of wealth than in any county of its size on this coast. The chief industries are farming, dairying, fruit, redwood lumber, and some gold mining. Wheat, barley, hay and fruit are cultivated extensively, and shipped directly to San Francisco. The population is estimated at 14,000. Being in easy communication contiguous to San Francisco, in a most salubrious climate, many wealthy San Francisco business men have been induced to make their residences in this county, most notably at San Mateo, Belmont, Menlo Park and Searsville. Redwood City is the county seat, 25 miles from San Francisco.

County Officers of San Mateo County.

E. EIKERENKOTTER.....County Clerk and Recorder
 GEORGE W. LOVIE.....County Assessor
 GEORGE BARKER.....County Auditor
 H. S. PITCHER.....County Tax Collector

MENLO PARK.

SAN MATEO COUNTY. A beautiful residence town on the S. P. Co.'s Northern Division, 32 miles from San Francisco. It is a favorite residence place for prominent city men, who have beautified the place with many elegant homes tastefully laid out. Tourists should not fail to visit this beautiful little town. It has complete postal, express and telegraph facilities. Its nearest banking town is San Francisco. Population about 250.

SAN MATEO.

SAN MATEO COUNTY. A post, express and telegraph town on the S. P. Co's Northern Division, 21 miles from San Francisco. A pretty little place surrounded by beautiful scenery. The town has hotels, stores and many handsome residences. St. Matthew's Military Academy, one of the best in the State, is situated here. The climate is delightful, and tourists should certainly not fail to visit this lovely spot. Farming and dairying are the chief occupations of the neighborhood. San Francisco is its nearest banking town. Population about 1,200.

The Nitrogenous Superphosphate of the Mexican Phosphate and Sulphur Co., has the indorsement of Professor Hilgard of the College of Agriculture of the University of California, for the pre-dominance in it of phosphoric acid, which is the best plant food.

309 and 311 Sansome Street,
SAN FRANCISCO, CAL.

Monterey County.

Monterey County is about 100 miles south of San Francisco, between parallels 30 deg. 45 min. and 37 deg. It is one of the largest counties in the State, having an area of 3,600 square miles, or more than 2,300,000 acres. It is four times as large as the State of Rhode Island and twice as large as Delaware.

The county is nearly 100 miles long, with an area of half a million acres of farming land. The Salinas River flowing through it forms the principal valley of the county. Between the Salinas Valley and the ocean are a number of small valleys, of the San Antonio, Nacimiento, Carmel, etc., aggregating 150,000 acres of tillable land. In the southeastern part of the county there are about 100,000 acres more of farming land, making a total of 750,000 acres of tillable land. There are probably 250,000 acres more of hills that might be farmed, and the balance is grazing land—some of it too rough even for that use.

According to the coast survey the Santa Lucia Mountains, between the Salinas Valley and the ocean, are the roughest of any between San Diego and Victoria. In these mountains, in the southwestern part of Monterey County, valuable gold mines, Los Burros, have recently been discovered. The ore assays from \$100 to \$8000 per ton. The Gabilan Mountains, east of the Salinas Valley, furnish good grazing and some fine mineral prospects. A good article of coal has been discovered, and a company is now engaged boring for oil. In both ranges of mountains there is limestone in great abundance.

The soil of the valleys is rich and productive, being composed of the sediment which for ages has been washed from the mountains; the rainfall is adequate for the produc-

tion of good crops, and the climate all that could be desired. In fact, the records show that Monterey has the most equable temperature of any town in California. Grain farming, stockraising and dairying have been the principal industries, but horticulture and growing sugar beets promise more profit. Claus Spreckles says the Salinas Valley is one of the best beet countries in the world, and he has promised the people of Salinas to build a factory of 500 tons daily capacity before July 1, 1890.

There are fifty-eight Spanish grants in Monterey County, covering most of the desirable land. Nearly all the grants still remain intact, which is one reason the county is not better developed. But there is a disposition manifest to cut up these ranches, and there are many indications that Monterey is in the dawn of a new era. Four new bridges are being constructed across the Salinas River, at a cost of \$135,000, and the Board of Trade of Salinas is making an effort to advertise the county. Mr. E. S. Harrison, a well-known publisher of this section of the State, has just issued for the Salinas Board of Trade a pamphlet on the resources of Monterey County, which contains numerous fine engravings. It is one of the handsomest publications of the kind ever issued.

Salinas is the county seat and principal city. It has 3,000 inhabitants, some fine buildings, good streets, water works, and is lighted by gas and electricity. Of Hotel Del Monte and Pacific Grove, which are in Monterey County, it is needless to speak. They are the pleasure resorts of the Pacific Coast.

To-day there is no better place for investment in the State than Monterey County, as property is comparatively cheap. There are many opportunities for getting cheap homes which will be valuable in a few years.

The Nitrogenous Superphosphate of the Mexican Phosphate and Sulphur Co., has the indorse-
ment of the University of California, for the pre-

MONTEREY,

MONTEREY COUNTY. It is situated on the lovely bay of the same name, 125 miles south of San Francisco. It is reached by the S. P. Co.'s Northern Division, and can be reached from the city in 3½ hours by the Monterey Express, the fastest train on the Pacific Coast. The route is through the beautiful suburban towns of Milbrae, Belmont and Menlo Park, where are situated the homes of many of California's millionaires, through the lovely Santa Clara Valley and its metropolis, San Jose, thence southward to the bay. The Hotel del Monte is situated in the center of a splendid oak grove of 125 acres, and is one of the finest seaside hotels in the country. Its bathing establishment is unsurpassed; spacious tanks 150x50 feet for warm salt water, plunge and swimming baths. Elegant rooms for individual baths with douche and shower facilities, and a magnificent beach of pure white sand for surf bathing. The drives around Monterey are picturesque and elegant, such as Cypress Point, Carmel Mission, Point Lobos, etc. It has complete post, express and telegraph facilities. Salinas is its nearest banking town. Population 500.

SALINAS CITY.

MONTEREY COUNTY. The county seat of Monterey County, is situated in the fertile Salinas Valley, 118 miles from San Francisco, on the S. P. Co.'s Northern Division (Soledad Branch). The city has grown rapidly during the past few years. There are two good weekly newspapers, the *Index* and the *Monterey Democrat*, which are a credit to the county. The population of Salinas is now estimated at about 3,000.
